It aims to make registration easy and efficient. To register: 1. Visit and create a personal account. 2. Log in using your credentials on the NYSC dashboard. 3. Fill out the form with accurate personal info and academic history. 4. Upload required documents, like certificates or passport pics. 5. Take part in biometric thumbprint enrollment as part of registration. 6. Submit your application through the portal and print a NYSC Registration slip once it's successful. After that, PCMs must wait for their Call-Up Letter indicating their National Youth Service Corps program location. Upload a clear photo of yourself dressed properly; this will be used on your Certificate of National Service and Exemption Certificate. You can also apply to correct any spelling errors or rearrange your name through your dashboard. Make sure your details, including date of birth, graduation date, and course of study, are accurate as they'll appear on the certificate. Foreign-trained graduates and part-time students are eligible, and if you're a PC in the Armed Forces, let us know during registration. Review your entries before submitting to avoid mistakes.
